MESSAGE FROM HEAD OF PRESCHOOL

MS UMMA MAHESWARY

Dear Parents,

We are thrilled to share the wonderful activities our preschoolers have been involved in this month!

This Mother's Day, our students participated in a heart-warming Mother's Day colouring project, where they expressed their love through their artwork. In addition to the colouring project, our little ones sent heartfelt video messages saying "I love you, Mummy," which was shared on our social media platforms. These adorable videos brought smiles to many faces and allowed us to celebrate the special bond between mother and child in a meaningful way.

Our preschoolers shone brightly at the recent Fairy Tale Concert hosted by Zenith International School. They performed a charming dance inspired by "Snow White," captivating the audience with their grace and enthusiasm. We would like to extend our deepest gratitude to all the parents who played a crucial role in making this event a success. Your efforts in preparing the costumes and ensuring the children were ready and excited for their performance were invaluable. The concert was a memorable and joyful occasion, filled with magical moments, thanks to your dedication and support.

Our students' days were filled with wonderful activities and learning experiences. Here are some highlights of what we've been up to:

Early Maths: Learning the Value of Money

Our students have been focusing on understanding the value of money and how to make purchases. Through engaging activities, the children have learned to recognize different coins and notes, and how to use them in simple transactions. We set up a mock shop in the classroom where the students practiced buying and selling items. They learned the concepts of saving, spending, and making change.

Exploring Creativity with Art and Craft

The children experimented with yarn and watercolour to create stunning designs. This activity not only allowed them to explore new materials and techniques but also helped develop their fine motor skills and artistic expression.

Early Science Fun with Shadows

The little ones also dived into the fascinating world of shadows. Through engaging activities, they learned how shadows form and explored their own shadows, sparking curiosity and wonder in the world around them.

Exploring Early Science with 3D Shapes

Our preschoolers are discovering the world of 3D shapes through fun and engaging activities using blocks and shapes. It's a hands-on learning experience that sparks curiosity and excitement.

To all parents, we are incredibly grateful for your continued involvement and support in all our activities and events. Stay tuned for more exciting activities and events in the coming months. Until then, let's cherish these precious moments and continue to support our little stars in all their endeavours.

Warm regards,
